Breakfast at hotel. Yogya Full Day Tour starting with a visit to the **Borobudur temple**, breaking the morning scene. The Borobudur Temple complex is one of the greatest monuments in the world. It is of uncertain age, but thought to have been built between the end of the seventh and beginning of the eighth century A.D. For about a century and a half it was the spiritual centre of Buddhism in Java, and then it was lost until its rediscovery in the

eighteenth century. In 1991, Borobudur was listed by UNESCO as a World Heritage Site. The structure, composed of 55,000 square meters of lava-rock is erected on a hill in the form of a stepped-pyramid of six rectangular storeys, three circular terraces and a central *stupa* forming the summit. The whole structure is in the form of a lotus, the sacred flower of Buddha. Besides being the highest symbol of Buddhism, the Borobudur *stupa* is also a replica of the universe. It

symbolizes the micro-cosmos, which is divided into three levels, the first level of which is man's world of desire influenced by negative impulses; the middle level, the world in which man has control of his negative impulses and uses his positive impulses; the highest level, in which the world of man is no longer bound by physical and worldly ancient desires. It is said that if you put your arm through one of the bell-shaped *stupa* and can touch the stone within, you will have your wish come true. See **Merapi**, unspoiled - original and real village life, where people carry their loads on their backs while at work. Experience a variety of tropical plants and fruits, birds, giant spiders, unique vegetables and the beautiful landscape in the cool mountain air.

On the way back to the hotel, explore **Mendut and Pawon temples**, known for their great history and philosophy, located near the Borobudur temple. The next stop will be a visit to the "**Kraton**",

the magnificent palace of the Sultan of Yogyakarta. The **Bird Market of Ngasem** and the **Tamansari (Water Castle)**, will be your next stop. Tamansari was originally a recreation garden or a resting house for the Sultan and the royal family. The other resting houses: **Warungboto, Manukberi, Ambarbingun, and Ambarukmo** functioned as places for vacation and meditation for the royal family. They were also used as a hiding place for

the royal family from enemy assault. Dinner will follow at a traditional restaurant.
